

**Bills up, pay down**  
**Public transport under threat**  
**Universities in crisis**  
**NHS at breaking point**  
**Education funding slashed**  
**Right to strike attacked**  
**Services cut back**

The people who keep our schools, hospitals, public transport, postal service and universities working have had enough. Enough of seeing their pay slashed by spiralling prices while the government cuts even more funding from vital services. Enough of seeing ordinary people and their families pay the price for a crisis they didn't create. Enough of listening to politicians attack their rights to strike and organise.

**WALK OUT**
